INTRODUCTION

For over years, ORYX has provided many of the revolutionary solutions to the aluminium industry's demanding market needs, and proofs to this are the products we have provided for many esteemed clients. Our company has thrived by catering to clients like you because we understand your needs and desires. We are aware of your target clients whether you are a one-time client, contractor, consultant, or group of companies. We also value your expectations, deadlines, and yearning to create unique solutions.

Having created a vast network of suppliers and a satisfied clientele base we offer you these services. At ORYX we are committed to not just meet your expectations, but to exceed them.

EXPERTISE

The following introduction to our company will enlighten you of our visions, standards, goals, what we have offered to our previous and current clients, and wishes to do so for you. Oryx Aluminium Industry S.P.C(ORYX) is a distinguished company in the field of aluminium subcontracting with over years of experience. It was formed in 2002 as a manufacturer of aluminium and glass windows and doors manufacturer. Since then it has expanded its range of products and services to handle the new market demands, and in spite of the furious rivalry and global market environment, it has grown into one of the primary companies in quality and output.

ORYX has been able to grow through efficient management, and what we call "Hands On" production. Hands On is a type of management that assures not only our clients but also our suppliers; get the best standard of quality available with a hassle-free service. The Hands On experience is the interaction of the sales, purchasing, engineering, manufacturing, installation, and maintenance departments for the completion of projects.

VISION & MISSION

OUR VISION

We visualize ourselves as maintaining our leadership in the field of aluminium subcontracting and outstanding quality through exceptional craftsmanship and continuous determination.

OUR MISSION

Our mission is to be able to provide innovative modern end products and services to our esteemed clients.

QUALITY

ORYX takes pride in the quality it offers for each project it undertakes. Not only do we believe that high quality materials should be acquired, but also the way materials are processed is of a superior significance in this industry to keep the quality level at an incline. Therefore all materials that is to be acquired for a project pass a rigorous inside house testing prior to any orders being placed. From the client's perspective the end product is the most important. For the end product to reach its final destination, the whole product and its components pass through several quality checks.

The first check is when the material that has been previously approved arrives at the production plant. Each item is checked of its state whether it is suitable to be used and as per the prearranged sample.

The second check is a continuous long-term process, whereby a vigilant use and supervision of materials being used at the manufacturing plant

are checked. All materials used are entered into a database for a cost reference; maintaining schedules, production efficiency, and the effectiveness in maintaining quality.

Third quality check is at the loading of materials to be sent off to site. The quality supervisor checks all materials for quality surveying, quantity, and if any adjustments are required.

The fourth and final check occurs at site after the erection and installation of all aluminium works. The verification is done to ensure the site engineer performs total and correct completion. The quality supervisor shall request any necessary adjustments if work and quality is not suitable.

These are just a few steps ORYX takes into creating a satisfying hassle free service and a final product that is durable for our customers and for you.

WE SPECIALIZE IN

- **Powder Coating**
- **All Type Of Aluminium Doors & Windows**
- Partitions
- Frameless Sliding Doors
- Railing (Aluminium, Steel, Stainless Steel)
- Curtain Wall, Structural, Frameless Glazing
- Skylights And Doms
- Stick Curtain Wall System
- Unitized Curtain Wall
- System Photovoltaic Curtain
- Wall Point Fixing Curtain wall
- Stainless Steel Curtain Wall
- Aluminium Architectural Shading system,
- Canopy System, Mashrabiya
- Architectural Metal Cladding
- Aluminium Composite Panel
- Solid Aluminium Sheet with Bespoke Design
- Fiber Cement, Terracotta Cladding
- Fire Rated Steel Doors & Lauvers
- Bullet Proof Windows & Doors
- Architectural Louvers
- Spider Glazing
- Metal Roof, Skylight, Walkway, Glass flooring

WHY CHOOSE US

TEAM OF PROFESSIONALS

We have experienced professionals who work efficiently and effectively. Our experienced professionals will advise you on the right choice as per the likes, requirements and preferences shown by you.

SAFETY AND QUALITY

At every stage of the project from the design, drawings, choice of materials, workmanship till completion, quality is encouraged in our system. Also fully protect to ensure that the reach the place of destination or site in the best possible condition.

WHY CHOOSE US

FULL OF SERVICES

We provide for all of the reasonable needs and wants of a customer within their particular industry. It means going beyond the basic expectations of providing a single service and offering greater options for customer.

100% COMMITMENT

Our commitment is to achieve the considerable energy rating asked by the architects, thus helping the environment, as well as in improving the living conditions and the well being of individuals who occupy the buildings.

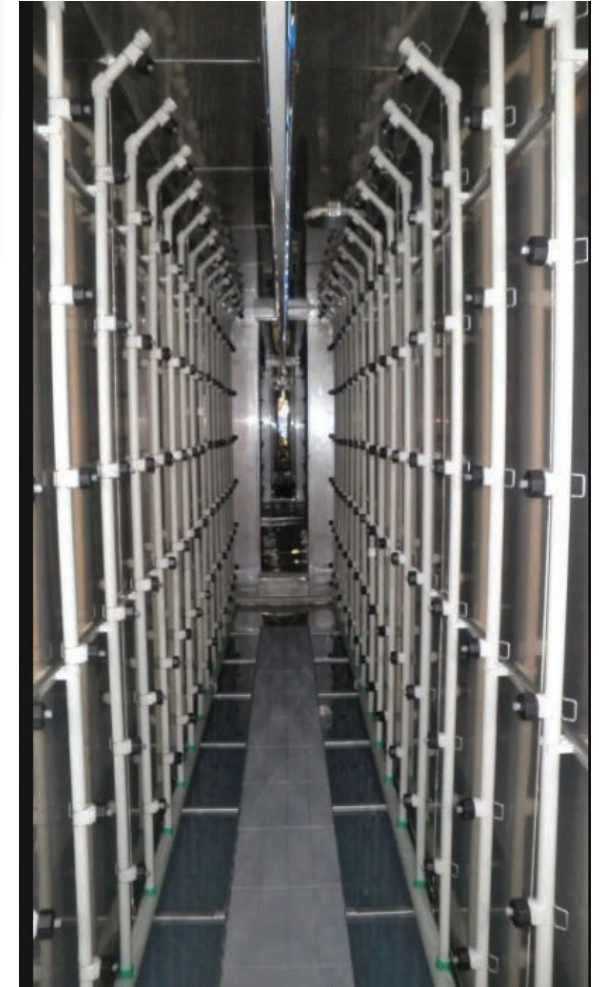

The background of the slide features a photograph of industrial machinery, possibly a paper mill, with large rollers and structural beams. This image is partially obscured by a large red triangle pointing towards the top right and a dark blue triangle pointing towards the bottom left. The text 'OUR MACHINERY' is centered within the red triangle. The entire slide is framed by a white border containing faint, light gray geometric patterns of nested triangles and lines.

OUR MACHINERY

OUR POWDER COATING PLANT

Oryx powder coating is a sister concern of Oryx Aluminium Industry located at Hidd Industrial area in the Kingdom Of Bahrain. Oryx has established the Coating plant with the latest technology considering the increasing need of quality powder coating in the region. Powder coating is proven to be one of the most durable metal surface protections coating system which has the power to withstand against any kind of extreme environmental conditions found in this part of the world.
